Under the Recreation and Public Purposes Act, as amended (43 U.S.C. 869 *et seq.*), all lands within Recreation and Public Purposes leases and patents are subject to lease under the provisions of this part, subject to such conditions as the Secretary deems appropriate.

§ 3101.7 Federal lands administered by an agency outside of the Department of the Interior.

§ 3101.7-1 General requirements.

(b) Public domain lands shall be leased only after the Bureau has consulted with the surface managing agency and has provided it with a description of the lands, and the surface managing agency has reported its recommendation to lease with stipulations, if any, or not to lease to the authorized officer. If consent or lack of objection of the surface managing agency is required by statute to lease public domain lands, the procedure in paragraph (a) of this section shall apply.

(c) National Forest System lands whether acquired or reserved from the public domain shall not be leased over the objection of the Forest Service. The provisions of paragraph (a) of this section shall apply to such National Forest System lands.

§ 3101.7-3 Appeals.

§ 3101.8 State's or charitable organization's ownership of surface overlying Federally-owned minerals.

Where the United States has conveyed title to, or otherwise transferred the control of the surface of lands to any State or political subdivision, agency, or instrumentality thereof, or a college or any other educational corporation or association, or a charitable or religious corporation or association, with reservation of the oil and gas rights to the United States, such party shall be given an opportunity to suggest any lease stipulations deemed necessary for the protection of existing surface improvements or uses, to set forth the facts supporting the necessity of the stipulations and also to file any objections it may have to the issuance of a lease. Where a party controlling the surface opposes the issuance of a lease or wishes to place such restrictive stipulations upon the lease that it could not be operated upon or become part of a drilling unit and hence is

without mineral value, the facts submitted in support of the opposition or request for restrictive stipulations shall be given consideration and each case decided on its merits. The opposition to lease or necessity for restrictive stipulations expressed by the party controlling the surface affords no legal basis or authority to refuse to issue the lease or to issue the lease with the requested restrictive stipulations for the reserved minerals in the lands; in such case, the final determination whether to issue and with what stipulations, or not to issue the lease depends upon whether or not the interests of the United States would best be served by the issuance of the lease.
